

**SLO FLYERS, INC.**  
**Executive Committee Meeting**

05-09-2025

**Members present:**

Tony Gallo, president  
Steve Willison, Treasurer  
Morgan Wilson, Safety Officer  
David Stafford, Secretary  
Evan Lalanne, member  
Dwight Wood, member

Tony Gallo called the meeting to order at 9:03 AM

**Purpose of meeting: Decide safest way to integrate close-in 3D flying.**

Discussion: Tony Gallo discussed various ways close-in 3D aerobatics could be accommodated at the EFR including the heli-pad area and over the runway. Evan Lalanne, a 3D pilot, commented that the heli-pad area was only suitable for very small foamie airplanes, so it was agreed that the runway is the best area. Next, it was agreed that a 90-day trial plan will be put in place that allows two specific days a month for close-in 3D flying. Also, at the discretion of the 3D pilots present on those specific days, other club members may fly between 3D flights. Good communication between all pilots at the flight line is vital. All other safety rules and flight operations regulations shall be observed during 3D specific days.

Meeting adjourned at 9:36 AM

Respectfully submitted,  
David Stafford, secretary
