ITEMS DISCUSSED

1. Runway will be ground and re-coated June 4th through 7th. NO FLYING.
2. Barriers are in need of replacing. Tony Jacobson volunteered to create design and materials list.
3. Perimeter fencing needs repair.
4. Jobs can be completed by small groups at their convince and not a concentrated work weekend.
5. General safety. Pay attention to safety rules. It is every members job to observe and regulate flying safety. Flyers should receive safety concerns in a positive manner. Violations include flying beyond barriers, taxiing in the pits, flying over the pits and high speed passes, not on the other side of the runway. Take offs are to be made on the main axis of the runway.
6. Website is up and running with a few exceptions. Dave suggests another provider which may require a slight website re-name.
7. An executive session will be held directly after the general meeting to discuss recent difficulties and evaluate a prospective member's interaction with another member.

Meeting adjourned 10:00.

Submitted,

Mike Rittenhouse, Secretary
